

May 1, 2009

I was only thinking about re-roofing; had the chance to see your workers in action next door. I watched them for two days & decided these are the people I want working on my roof.

Great, pleasant, guys & never afraid to work past 5:00 PM.

When done you wouldn't even know they had been here.

You should be proud of your men; they are the best.
