Dear Eric, Brett and Team:

I just wanted to write and let you know how pleased we were with the roofing job you did for us. We received several quotes before deciding on Family Pride. You were not necessarily the lowest bid, but you were the most professional and for that reason we chose you. We were not sorry.

Not only was your presentation professional, but your whole team demonstrated the same professionalism in the quality of work they performed. Everything was completed just as you had said and in a timely manner. In addition, when the job was complete other than having a beautiful new roof you would have never known your team had been here. The entire area was clean from debris and looked just as it did prior to the job.

Having Brett here each day with the team gave us extra assurance that the job was being done correctly. Several times during the construction my husband climbed on the roof with your workers just to see how things were going. He was impressed and pleased to see that no shortcuts were being taken. Everything was being done exactly the way it had been presented to us and up to code. Since he grew up in a family that did construction work he knew what to look for.

All members of the team were pleasant to deal with and I as a female was especially impressed when I DID NOT hear one swear word out of any of them while they were here. For whatever reason, this does not seem to be the norm in the construction business. To me though, it was greatly appreciated and just re-enforces your team's professionalism. Thank you.

Our roof looks great and we have had many positive comments about it, as well as people asking who did it. We are happy to recommend Family Pride Roofing to anyone that asks.

Please use this letter as your authority to use us as a future reference.

Thank you so much for a job well done.

Sincerely,

Yvonne Warner
